VZDOLŽNI PREREZ

predvidena kanalizacija

The image contains two technical drawings of a road cross-section, labeled 'PREČNI PREREZ' (Cross-section) and 'VZDOLŽNI PREREZ' (Longitudinal section).

PREČNI PREREZ (Cross-section): This diagram shows a road cross-section with a car icon at the top. The road surface is labeled 'POVOZNA POVRŠINA'. The cross-section is divided into three layers: a top asphalt layer (hatched), a middle granular base layer (stippled), and a bottom yellow granular sub-base layer. The total height of the granular layers is 0.40, and the height of the asphalt layer is 0.10. The total height of the road structure is labeled 'H (iz podolžnega profila)'. The bottom layer has a thickness of 0.25. The bottom layer is shown with a circular manhole opening of diameter 'DN'. The side slopes are indicated by angles α_1 and α_2 . The bottom width is labeled 'DN'.

VZDOLŽNI PREREZ (Longitudinal section): This diagram shows a longitudinal section of the road. It shows the road surface, the granular base layer, and the yellow granular sub-base layer. A red line indicates the 'predvidena kanalizacija' (planned sewerage) running along the bottom of the road structure.

Detajl revizijskega jaška

Technical cross-section diagram of a drainage system. The diagram shows a trapezoidal structure with a top width of 2.46m and a bottom width of 0.90m. The total height is 0.20m. The layers from top to bottom are: Humus (0.10m thick), Zaspj z izkopanim materialom (0.60m thick), Zasp nad cevjo - pesek 0-16mm (0.25m thick), Cev PE 100 PN 10 SDR 17, DN200mm (0.10m thick), Posteljica - pesek 0-16mm (0.10m thick), and Drenažni zasp pod posteljico-pesek 16-32mm (0.40m thick). A person silhouette is shown at the top for scale. The diagram is labeled with dimensions and material names in Slovenian.

Technical cross-section diagram of a road construction. The diagram shows a car on the surface. The layers from top to bottom are: Asfalt, Tampon, Zasp 2 izkopanimi materialom, Zasp nad cevjo - pesek 0-16mm, and Posteljica - pesek 0-16mm. Dimensions include a total width of 1.98m, a base width of 0.90m, and vertical dimensions of 0.10m, 0.60m, 0.25m, and 0.10m. A horizontal dimension of 478.00 is also indicated.
